FULL STACK WEB DEVELOPER

I am a trilingual full-stack web developer with excellent organizational skills who loves learning every day. "A day spent without learning something new is a day wasted." This is truly my personal motto. Love working in a team and problem solving and consider each task I take as a personal project with goal to get better.

PROFESSIONAL EXPERIENCE

HARDWARE SOFTWARE SPECIALIST – EXPERIMAC 2018- present

- Conducts hardware and software installation and configuration for laptops and desktops with emphasis on best practices.
- Performs quality control, inspection, and testing for a department.
