FULL STACK WEB DEVELOPER

Full-stack web developer with excellent organizational skills who loves learning every day. "A day spent without learning something new is a day wasted." This is truly my personal motto. Love working in a team and problem solving and consider each task I take as a personal project with goal to get better.

EDUCATION & TRAINING

- UNH Full Stack Web Development program 2018
  Software Projects:

  1. **Clicky Game of Thrones** – *simple memory game built with React.js*
